

Notes from GAP presentation

Grow Discipleship

We have made good progress this year towards achieving our objectives and we plan to continue this progress with our new objectives for the coming year:

- We have some well-established discipleship and prayer groups and we are continuing to work to encourage the congregation to take part or start groups of their own.
- The discipleship library is now up and running – many thanks to Lyn and Cedric for their oversight and management of the library and to Colin for donating and adding to this excellent resource to help build our personal faith.
- A big push for us this year is to continue to encourage people to share their gifts and take a more active part in Church life. We already have new readers and Eucharist Assistants (Anne and Julie) and, as part of our Trio campaign this year, we are seeking more willing hands to share their gifts.
